DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 9 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Allison (4,065,225). Allison discloses a co-axial, multi-rotor wind turbine having a counterweight 12 forward of a pivot point serving to at least partially counterbalance a downwind section of the driveshaft 32 and its attached rotors.

CONCLUSION

Allowable Subject Matter

Claims 10-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 1-8 are allowed.

Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Art Unit: 3745

Are (4,213,057) discloses a co-axial multirotor wind turbine having a rotor at each end of the driveshaft.

Poulsen (4,242,043) discloses a windmill wherein the rotor is counterbalanced by a staying device.
